LITERARY PIRACY.—A few years ago the Rev.

Dr. Everts, of this city, compiled with great labor and research a volume entitled the "Life and Thoughts of John Foster," embracing the most pointed, original, and eloquent remarks of the great English essayist. They were selected with much care, and evinced a very cultivated taste upon the part of the compiler. Introductory to these gems of thought was an autobiography of Foster, with a splendid analysis of his character and literary style, written by Dr. Everts, and also his name as compiler.

They have changed the title of the book and appropriated, without the least credit or reward, the arduous literary labors of our distinguished fellow-citizen. We have never known a more disgraceful instance of literary piracy, and are astonished to find so respectable a firm concerned in the transaction.

Recently the stereotype plates were purchased by a leading New York publishing house. This firm has seen fit to omit the sketch of Foster's life, written by Dr. Everts, and also his name as compiler.

They have changed the title of the book and appropriated, without the least credit or reward, the arduous literary labors of our distinguished fellow-citizen. We have never known a more disgraceful instance of literary piracy, and are astonished to find so respectable a firm concerned in the transaction.

There has just been decided at Lafayette, Ind., the case of the Lafayette Plankroad Company vs. the New Albany and Salem Railroad Company. The damage alleged was \$10,000. The suit was brought to test the right of the railroad to cross the plankroad in the manner in which it did in the town of Lafayette. The jury, after hearing the evidence, arguments, and the instructions of the court, decided that the railroad had crossed the plankroad doing no unnecessary damage.

ANOTHER SWINDLER.—The Knoxville Register, of the 16th inst., announces the acquittal of one S. Howe, a contractor on the East Tennessee and Virginia Railroad, on the Bull's Gap section, who took his departure one night last week, leaving liabilities to the amount of about \$10,000 (chiefly due in Knoxville), and with the greater portion of the money in his pocket, of course.

It is thought that Howe has gone to Davenport, Iowa.

CITY GAUGER.—Merchants, manufacturers, and others interested are directed to the card of Mr. N. B. Owings, who has been elected by the General Council to the office of city gauger. Mr. Owings is entirely competent to the discharge of his duties, and will attend to them faithfully. He may be found at the house of McMullen, Moore, & Co., adjoining the Bank of Louisville.

A ploughing match was advertised to come off near Utica, N. Y., on Tuesday 14th. There was no announcement as to "weather permitting," and the man with the snow plough claimed the prize, as his was the only plough on the ground. The judges decided that his plough was not on the ground, by at least one foot, and so the match was postponed.

SECRETARY OF LEGATION TO BERLIN.—It is generally stated that ex-Gov. Wright, of Indiana, is to be our minister to Prussia. Mr. Theodore E. Bruchler, of this city, is spoken of as Secretary of Legation. Various Democratic papers in Indiana speak of Mr. B. as a very accomplished scholar and gentleman.

Mr. William E. Burr, who has occupied the position of teller in the Branch of the Bank of Kentucky, at Lexington, for several years past, has resigned the situation for the purpose of removing to Chicago.

A FORGER CAUGHT.—Yesterday Officer Croft, of the Portland police, arrested a man named Chas. Richardson. He had forged an acceptance on J. F. Gamble for the small sum of \$22 00.

A judgment has been rendered against Drs.

Courtney and Weyburn, of Lafayette, Ind., for \$200 for malpractice. They set the arm of a boy so badly as to render him lame for life.

This is the production of a true poet:
(For the Louisville Bulletin.)

To Lula.
In the coming Eden year
Joy shall bloom from many a tear
That is sown in sadness here;
God shall be the gardener,
In the coming Eden year.

Yes, when you and I are dead,
In that Eden we shall wed
Forms of beauty that have played
In our dreamland, and then fled—
Yes, when you and I are dead.

Then my Lulu shall be mine,
Then two souls as one shall shine,
Rounded, starlike, crystalline;
Then we'll quaff love's newest wine,
Pressed from vintages divine.

Then with us shall life begin,
Nightless, fearless, and serene;
We shall see as we are seen,
Every thought of dauniod sheen—
Only then shall life begin.

Endless ages round shall run,
Spirit systems circling one
Glorious, radiant, central sun;
Elli shall never reach its noon
Till the life of God is done.

If we know that land is ours,
What though storms shall bend the flowers?
They shall bloom in sunnier bower,
All the sweeter for life's showers,
If we know that land is ours.

Safe beyond Achern's brim,
On God's mountains we will climb—
Singing o'er the tombs of time
To the list'ning stars our chime—
Love alone makes life sublime.

RIVER AND STEAMBOAT MATTERS.

PORTLAND TELEGRAPH LINE.

Office at Portland, Deline's Drug Store, on the wharf.

Office at Shippingport, in the Canal Office.

Office at Louisville, Durrell's Clothing Store, corner Fourth and Water streets.

The river was at about the same stage last evening as on the preceding evening—6 feet 1 inch water on the falls and 8 feet 10 inches in the canal. It will doubtless commence rising to-day, as the Cincinnati papers report it rising there on Tuesday at the rate of half an inch per hour. From Capt. Saunders, of the Dove, we learn that the Kentucky river was falling, but the Ennina Dean reports it rising, as well as the Ohio river at Madison.

The Evansville Journal of Tuesday reports the river rising there rapidly, and that it had overflowed the bottoms above that point. The rise must be from Green river.

The Mississippi and all its tributaries above St. Louis were falling.

The Nashville Banner of Tuesday reports 4 feet water on the shoals in the Cumberland, and the river falling slowly.

Mr. Booth, of the Portland and Shippingport telegraph line, keeps a register of the steamboat arrivals and departures.

Storeboats Sun.—We learn from Mr. Upson, of the R. M. Patton, that four storeboats lying at or near Newburgh, Indiana, were sunk by a storm on Tuesday. They were laden with flour, potatoes, and other produce. The Patton picked up a few barrels of flour that were floating in the river.

Steamer Netter Miller Sun.—We learn from the Nashville Banner that this steamer was sunk a few days ago in the Upper Cumberland, just above Burksville. Her bow was lying in six and her stern in four feet water. The accident occurred as she was leaving port. A strong wind swung her stern ashore, and a snag tore a large opening in her hull. She had very little freight, and it escaped a wetting. It is thought she can be raised easily. She was commanded by Capt. Tindall.

The St. Louis News has the following paragraph.

Arrest of Counterfeiters.—The Cincinnati Gazette reports the following:

At Covington, on Monday, an old man named Barr was detected in the act of attempting to pass spurious gold \$2 1/2 and \$5 pieces. He was taken to jail, and on searching him there was found upon his person \$300 in counterfeit bills on the Canal Bank of New Orleans, of the denominations of \$20, \$50, and \$100. Marshal Butts obtained information respecting his confederates, which he communicated to Mr. Knifin. About 4 o'clock an old man named T. Silver was arrested. He was arrested about four years ago in this city and taken on to Virginia to answer a charge of passing bad money there, and was sent to the penitentiary, which place he left at the expiration of his time, not long ago. On his person were found seventy-one dollar gold pieces, of the date of 1853. They were carefully wrapped in paper, so that no two of them could rub against each other. They are neatly executed, and well calculated to deceive, but they are not near so heavy as genuine coins. He had also one of the \$20 counterfeits on the New Orleans Canal Bank, a good \$20 gold piece, and \$4 in good bills.

An altercation took place yesterday afternoon, between John Peters, a German pedlar, and Frederick Francis, a colored man, which resulted in the death of the former. Peters, it appears, had assaulted the wife of Francis, who is a white woman, and to protect her Francis attacked Peters, knocked him down and killed him. Francis then gave himself up.

The examination of Scatchard, who recently attempted to raise the wind by forging a pardon for Huntington, has resulted so far in nothing but evidence going to prove Scatchard a swindler and associate of swindlers in various parts of the country—particularly in New Orleans and Natchez.

Interesting New York Items.—The following items are from a New York letter of April 20:

The legislature finally adjourned on Saturday, at 10 1/2 o'clock. Previous to adjournment the Dred Scott resolutions were passed, after being modified so as to imply that the confidence of the people in the Supreme Court has been impeached, but not lost. The usual ceremonies and courtesies were attendant upon the breaking up of the session.

The steamship Vanderbilt had a most successful trip on Saturday. Her speed answered the expectations of the most sanguine, as she ran from the Southwest Spit to Castle Garden, a distance of seventeen miles, in fifty-five minutes.

The slavery question was under discussion in the M. E. Church Conference now in session in Brooklyn, on Saturday last. A committee presented two reports—the majority against having anything to do with the question of slavery, and the minority in favor of denouncing the evil everywhere at every opportunity.

An alteration took place yesterday afternoon, between John Peters, a German pedlar, and Frederick Francis, a colored man, which resulted in the death of the former. Peters, it appears, had assaulted the wife of Francis, who is a white woman, and to protect her Francis attacked Peters, knocked him down and killed him. Francis then gave himself up.

He had also one of the \$20 counterfeits on the New Orleans Canal Bank, a good \$20 gold piece, and \$4 in good bills.

When he found himself about to be arrested, Silver drew a splendid self-loading pistol, which he evidently intended firing, but one of the officers caught his arm with sufficient quickness to prevent the act. In his bosom was found a large new bowie knife.

Between 6 and 7 in the evening, another of the gang, whose name is J. Miller, entered the same hotel and was arrested. Upon his arrival was found a counterfeit half dollar, and a list of the names and residences of twelve or fifteen counterfeiters who deal in the "stuff." Most of them are located in Northern Ohio. Barr remains in jail at Covington, and the two others will be examined in the police court to-day.

The splendid regular packet Northerner is due from Memphis to-day, and she will return to that port on Saturday evening.

The fine Tennessee river packet R. M. Patton arrived last evening with a good load. She will return to that port on Saturday evening. Mr. Upson has our thanks for a copy of the manifest.

The steamer Empire has been laid up.

We thank Mr. Vinyard, the attentive clerk of the Emma Dean, for a copy of the manifest. The Dean leaves for Carrollton punctually at 10 o'clock to-day.

The D. A. Given arrived from Nashville last evening. We understand she has 1,000 hogs for one of the distilleries above this point.

The Pete Whetstone, Capt. Greenlaw, is advertised to leave for New Orleans to-day. The Wm. Dixon, Capt. Baught, is the packet for the Tennessee river this evening. She is a good boat and well officered. The H. Bridges, Capt. Combs, leaves for the Tennessee river to-day. The Statesman commences making regular semi-weekly trips in the Henderson trade to-day. She has been painted and renovated and is in tip top condition. Capt. Sullivan is her commander. The Telegraph No. 2, Capt. Hildreth, is the mail boat for Cincinnati.

A ploughing match was advertised to come off near Utica, N. Y., on Tuesday 14th. There was no announcement as to "weather permitting," and the man with the snow plough claimed the prize, as his was the only plough on the ground. ENDOWMENT OF CHRISTIAN UNIVERSITY.—Elder D. P. Henderson and President Shannon are yet in New Orleans engaged in behalf of Christian University. They have organized a Christian Church in New Orleans, and have secured over \$100,000 for Christian University from the citizens of the South and West.

THE NEW U. S. CENT.—The coining of the new cent, at the mint in Philadelphia, is progressing rapidly, but the pieces will not be paid out until at least three millions of them are completed. This will probably be in three weeks' time.

HALF-AND-HALF.—The Selma (Ala.) Reporter mentions having seen in that town a boy, one half of whose face is black as ebony. Both of his parents are pure blacks. He was born and raised in that county.

Eight boys escaped from the St. Louis house of refuge Saturday night. They were headed by one flourishing a hatchet, and forced their way past the guard, who, not anticipating anything so desperate from boys, was not prepared for them.

Dr. Ezra Ferris, a Baptist preacher and member of the convention that framed the first constitution of Indiana, died at Lawrenceburg, Ind., on Sunday, aged 84 years.

EVENING BULLETIN.

THURSDAY EVENING, APRIL 28, 1857.

AN ARCTIC VISITOR.—A strange bird of the penguin species was killed on Wednesday, about two miles above this city on the Ohio river. It is snowy white, measures over 11 feet from tip to tip of the wings, and about 8 feet from the tip of the beak to the tip of the tail. Upon the beak there is a singular excrescence suggestive of an iceberg. It is evidently a stray visitor from the Arctic regions. Its presence in this region is supposed to have some mysterious connection with the long-protracted cold weather. This singular bird is exhibited at Walker's. It was purchased by our young friend, Mr. Orr, of Dunport's, who was sagacious enough to discover its worth and merits as a rare ornithological specimen. He has employed a taxidermist who will preserve the original form and loveliness of pinnaege of this rara avis.

SHOOTING IN HARRISON COUNTY.—The Maysville Eagle reports the death of a man named Jones at Claysville, Harrison county, from a shot by Wm. Burns. It appears that Jones and some other man had been quarrelling and were about to engage in a fight when Burns interfered for the purpose of separating them and preventing the difficulty, when Jones drew a bowie-knife and commenced an attack on Burns, who immediately shot him with a revolver, inflicting a mortal wound.

SALE OF A JACK.—Mr. Robt. E. Miller, of Bourbon county, a few days since, sold his imported Jack, to a company of Madison county, for \$2,250.

FIENDISH.—The Chicago Journal learns that a man by the name of Todd went into a saloon on the North Side, kept by one Quinlan, and got drunk. Throwing himself upon a sofa he got asleep, when the proprietor threw burning fluid upon his clothes and set it a fire. The man is said to be badly burned.

DISTURBANCE AT CHICAGO.—Our dispatches the other day mentioned the destruction of several buildings in Chicago. They were—some dozen of them torn down in order to get rid of the tenants who refused to leave the premises.

Miss Olive Logan, a sister of the celebrated actress Eliza, was married in Boston on the 17th, to Edward A. De Lisle, a wealthy merchant of New York. Miss Olive was a young actress of considerable promise.

A. J. Rooker, the late Democratic Township Treasurer of Marion county, Ind., is a defaulter in \$900.

LATER FROM HAVANA.—**AN INCREASE OF THE CO-OP. TRADE.**—The Black Warrior, which left Havana April 14, has arrived at New York. The Courier and Enquirer has the following letter brought by her:

HAVANA, April 14.

The British ship Catharine Glen arrived on the 18th from Lantao, via Hong Kong, with 435 Coolies. I will make some slight amends for the omission by now sending you a list of all the arrivals of Coolies at this port during the last and present year, up to this period, with the flags of the several ships in which they were brought: In 1856 there were arrived seven British ships, bringing 1,846 Coolies; four American ships, with 1,910 Coolies; three Spanish ships, with 892 Coolies; and one Holland ship, with 319 Coolies—making the total number of Coolies brought to this port last year 4,967. During the present year there have arrived one British ship, with 435 Coolies; one American, with 341 Coolies; four Holland, with 1,500 Coolies; and one Peruvian, with 340—the actual number this year, up to the present period, being 2,616.

The U. S. ship Saratoga arrived quite late on the afternoon of the 12th.

There is to be a joint stock company formed to establish a line of screw steamers to navigate the coasts of this island.

Heavy rains have injured the sugar crop. Sugars have advanced, owing to the anticipated shortness of the crop as compared with last year; stock at Havana, 160,000 boxes, against 230,000 at the same time last year. Muscovadoes are quoted at from 10 to 12 rials per arroba. The market very much excited. Money plentiful. Exchange improving. Freights very dull.

MANUFACTURE OF CANDLES.—M. Laporte, of Paris, has made some peculiar improvements in candle-manufacture, consisting, first, in the employment of a tubular wick, composed of a great many threads, woven, plaited, or otherwise united together; also, in the employment of a jacket or case round the moulds, capable of being heated from 112 to 132 degrees by steam; also, in a general process to manufacture a candle composed wholly of vegetable wax or having vegetable wax for its base. To make 200 weight of candles in this way, take 66 parts, by weight, of vegetable wax and 31 parts of tallow, or of cocoanut oil, or other suitable oil, or of any fatty liquid or solid body suitably prepared, and heat the same to about 134 degrees by means of steam or a water bath. The fatty body is combined with the vegetable wax for the purpose of rendering the latter less friable and brittle and of increasing the intensity of the light. Previous to melting, the wax must be crushed up and then thrown, together with the tallow or fatty matter, into a vessel containing water, acidulated by sulphuric acid. The melted mixture must be allowed to remain until it becomes sufficiently fluid, when it is drawn off into another vessel, where it is left to get a little cooler, an even temperature being maintained by stirring. The mixture is next run off into moulds containing wicks and heated from 112 to 132 degrees, and the temperature is gradually lowered to from 59 to 67 degrees, when the candles may be removed from the mould.

COMETS.—Lt. Maury informs us that another telescopic comet, discovered by Dr. Bruhns at Berlin March 18, is now visible in the northwestern part of the heavens. It is supposed to be identical with the third comet of 1846, discovered by Brosem—an elliptic orbit for which has been computed by Dr. Von Galen, by which it returns to its perihelion June 25th of the present year. The places of the two comets, observed by Mr. Ferguson with the great refractor of the National Observatory on the 17th April, are as follows:

Comet, 1857, I....(d'Arrest) R. Ascension. Declination.

April 17th.....8° 49' 6" 0° 14' 58" 58' 58".

Comet, 1857, II....(Bruhns) R. Ascension. Declination.

April 17th.....8° 52' 58" 0° 17' 20" 45' 57' 58".

The first comet is increasing its distance from the earth; the second is approaching, and will be visible during the whole of May. The first is now in Aries, the second in Perseus.—Nat. Int.

Affection is to be always distinguished from hypocrisy, as being the art of counterfeiting those qualities which we might with innocence and safety be known to want. Hypocrisy is the necessary burden of villainy; affection part of the chosen trapings of folly.

VERY GOOD.—At a dinner given to Hon. Mr. Lake, at Vicksburg, the "army and our citizen soldiers" had just been toasted, and a speech made by a distinguished officer present, when a gentleman at the south end of the table rose and said he saw no reason for neglecting another honorable profession represented there, and by way of supplying the omission he gave, "The medical profession—about as destructive as the army or the navy." This brought down the house."

An auctioneer put up "Drew's Essay on Souls" for grave, which was bid off by a shoemaker, who gravely asked if he had "any more articles on shoe-making to sell?"

MODERN SODOM.

The publication of the recent order from the Department of War, putting in motion a large body of troops on our Western border, under the command of General Harney, has created a general impression that their ultimate destination is the Utah Territory, and that it indicates an intention on the part of the Government to put down, by a strong hand, the criminal and disgraceful outrages which have so long been committed by Brigham Young and his band in the Utah Valley, and establish in that sink of iniquity (by force if need be) the authority of the Government and laws of the United States. Among those whose attention has been arrested by the Army Order is a respectable citizen, who lately spent twelve months in the Salt Lake Valley, engaged in business connected with the transit of the mails through the Territory to and from the Pacific. While thus residing in the Mormon community he studied attentively the character and government of Brigham Young, the supreme head, as well as the customs, habits, morals, and laws of the community, if laws they may be called, which consist simply in the will of despot. This gentleman, corroborating fully all that Judge Drummond has lately stated on the subject, has deemed it his duty to make known to the country the result of his own observations on the condition of things in the Territory. In executing this task, however, he has not touched upon the domestic enormities and depraved social system of the community, but has confined himself to the political aspect of Mormonism—to an exposition of the polity, power, evil purposes, operations, and character of Young and his coadjutors or tools. His statements are startling, and will concur entirely in the remarks of a Richmond contemporary, that it is high time that the Government of the United States was directing its serious attention to the condition of things in Utah. And, if the revelations of our correspondent be true, as we do not doubt they are, it is apparent that the day is rapidly approaching, if it be not already come, when the Government will find it no easy task to subdue the rebellious legions of Brigham and quell the power of the modern Mahomet in his stronghold. The communication of our correspondent is appended:

To the Editors of the National Intelligencer:

GENTLEMEN: From a military order recently published in your paper, I infer that a division of the United States army is to move into Utah. This news will be hailed with joy by thousands of American citizens in every State and Territory of the Confederacy who have suffered directly or indirectly by the merciless outrages of the Moronians, committed while quietly pursuing their toilsome journey overland to Oregon and California. Every indignity has been offered to emigrants, every species of property stolen, and every species of crime has been committed. The Federal laws have been trampled in the dust, Government officials set at defiance, menaced, threatened, and insulted; juries have been influenced and the ends of justice thwarted; the prison doors have been opened and the criminals set free. All this did not satisfy them, but they must enter the half of records, and publicly burn the archives of the Territory.

Now, as evidence of their inveterate hatred to Americans and everything pertaining to America (and these sentiments are constantly taught and preached), I will cite as follows:

"A Gentle shall not board in my family, and if one of my houses was rented to a Gentle, after the time had expired I would burn it down! That's the doctrine!"

"If a Gentle were boarding in my family, and I should have down to pray, and the Gentle or heathen should have it, I would say to him, bow down, you devil! This is the doctrine, and I know it; and any man who shall oppose it shall be destroyed!"—Heber C. Kimball.

Their religious tenets may be inferred from the following:

"I believe in marrying brothers and sisters; I believe in the pre-existence of man; that Adam and Eve are the parents of all mankind; that Jesus Christ is God; that the spirit of this dispensation will be resurrected by Joseph Smith, Jr. If I can ever save, I expect to be saved by and through the atonement of Joseph Smith!"

"Went my daughter to marry a Gentle, and she came back in this kingdom, namely, out her throat from ear to ear."

"Brigham Young."

Their advocacy of internal improvements may be inferred from the following:

"Mr. Lee who piloted the Government troops through on that route (south side of Great Salt Lake) last spring (1854), wished to publish a book—a guide of the route—but was prevented on not to do it, as the Presidency there (Carson Valley) did not wish the publication to pass that way."

"Objects of missionaries—"Most of the foreign missionaries will be called home. They will be sent among all the Indian tribes to teach them agriculture, mechanics, arts, and military tactics."—Brigham Young.

Measures of defense: "We have the self-loading twenty-five pound rifle, the Minie rifle, Browning's revolving five-shoote rifle, Colt's rifle and pistol, and a revolving gun or field piece."—Elder Titus.
